At Office of Herbert Cooper  
Champion, each Thursday  
afternoon.

### Local & General

Mrs. Gatenby has as her guest  
her mother of Vauxhall.

Mrs. Maxwell has been visit-  
ing at her home in Medicine  
Hat.

Born—To Mr. and Mrs. Joe  
Reath on Saturday, June 18th,  
a son.

Mrs. Clever, Mrs. Heal, Mrs.  
McIntyre and Mrs. Latiff were  
Lethbridge visitors Saturday.

Mr. Johnson and Mr. Kelly  
of Trochu were week end  
visitors at the home of Mr. and  
Mrs. R. D. Farries.

Mrs. Martin Clever of Cal-  
gary has taken up permanent  
residence at her home here.

Mr. and Mrs. J. M. Pharis and  
Mrs. Nelson were Lethbridge  
visitors Friday.

Mr. and Mrs. Clarence Davis  
motored to Calgary this week.

Miss Mary Zang and Mr.  
Clarence Robinson, both of  
Vulcan, visited Champion dur-  
ing the week.

Mr. and Mrs. A. McCullough  
were Lethbridge visitors re-  
cently.

We are glad to report that  
Mr. Pat Larkins is doing nicely  
and is expected home soon.

Come to the dance Saturday  
night in the Community Hall.  
Admission 25c per person.

H. E. Johnson of Okotoks  
spent a few days in town this  
week renewing acquaintances.

Mrs. McIntyre of Bellevue is  
a visitor at the home of her son  
W. A. McIntyre.

Mrs. Berger and I. Granlin  
were Calgary visitors Thursday.

Miss Helen Higgins received  
word that she had passed her  
recent music exams with hon-  
ors.

Service will be held in Yet-  
wood school on Thursday, June  
29th, at 8 o'clock, Rev. Peter  
Dawson officiating.

Get your supply of Paris  
Green or Arsenate of Lead at  
the Drug Store.

Miss Margaret Patterson was  
a guest at the home of Mrs. G.  
Malloy of Vulcan on Monday.

Mrs. Schooley of Lethbridge  
was a week end guest in  
Champion, visiting her daugh-  
ter Miss Blanche Schooley.

J. M. Roebuck of Lethbridge  
was a visitor in town this  
week.

J. Granlin is adding concrete  
to the pit in his garage.

Mr. and Mrs. S. H. Bain and  
family leave Friday for Regina.

Mr. and Mrs. Dillingham and  
son and Miss Florence Ulrich of  
Oakland California are visitors  
at the home of their mother,  
Mrs. Ulrich.

Mrs. Clara Ashmore and Jim  
Ashmore returned last week  
from their trip to New West-  
minster. The scenery on their  
journey was of unexcelled  
beauty and they were highly  
impressed with the coast.

Don't forget the dance at  
Alston on Friday, June 24th,  
sponsored by the Alston girls  
football team. Music by Don  
Stephenson and his Rhythm  
Vendors.

A game of softball between  
Fireguard and Champion ladies  
resulted in a win for the latter  
with a score of 30-13. Games  
were also played between the  
men of Alston, Hiawatha and  
Fireguard with Hiawatha as  
winners.

### Come to Champion

July 1st

The Elks in charge of the  
program on July 1 are sparing  
no efforts to make the day  
memorable and enjoyable for  
those who attend. An out-  
standing feature will be the  
presence of the Vulcan band,  
which assures music second to  
nothing available in the  
province. The Stavelly, Lake  
McGregor and Champion base-  
ball teams will provide enter-  
tainment for those to whom  
baseball is the backbone of a  
celebration of this kind. In  
addition there will be a horse-  
shoe tournament, a complete  
line of athletic sports, softball  
etc. Aeroplanes will be on  
hand to give you an air ride, if  
you are inclined that way,  
both will furnish you with  
refreshments of every kind and  
there will be the usual big  
dance in the evening with Len  
Davis and his orchestra. You  
may rest assured everything  
will be done to make the day  
entirely enjoyable to you.

### Crop Report

Wheat is now from five to  
fourteen inches above ground  
and growing rapidly. Early  
wheat is shot blade with heavy  
moisture. There is an abundance  
of moisture to carry the crops  
through the growing season.  
Pasture conditions are excel-  
lent. Grasshoppers made their  
appearance this week and sev-  
eral farmers have started to  
poison. Poison is obtained  
from the municipal office at  
Carmangay.

At the meeting of the direct-  
ors of the Agricultural Society  
held last Saturday it was de-  
cided on account of the present  
conditions of the times to not  
hold a fair this year. Mrs.  
Beaubien, director from the  
Champion district for the Wo-  
men's Institute, was present  
and told them that the Insti-  
tute were prepared to go ahead  
and prepare their district ex-  
hibit, if they were prepared to  
carry on, and that the district  
took a whole hearted interest  
in it.—Carmangay Sun

Grasshoppers have made their  
appearance along the banks of  
the Little Bow, to the south  
and west, and east of town. A  
poison station has been estab-  
lished at Carmangay, from  
which poison will be distributed  
to the Municipal District of  
Harmony, where required.

The board of trustees of  
Champion Consolidated school  
district held a meeting last  
week, Chairman J. Brown and  
all trustees present. Resigna-  
tion was received from Miss  
McFall of the public school  
staff. The resignation was ac-  
cepted with regret. Letters  
were forwarded to other mem-  
bers of the staff asking them  
to continue for the ensuing  
year at reduced salaries. Very  
little other business was dis-  
cussed.

Mr. A. N. Mitchell, Com-  
mercial Superintendent and  
auditor, of the Alberta Govern-  
ment Telephones, and Mr. G. D.  
Baker, General Manager, both  
of Edmonton visited the local  
office last week and found  
everything in a very satis-  
factory condition.

THURSDAY June 23, 1932

**NOTES AND COMMENT**

**"A Mighty Man Is He"**

Progress has its price. But sometimes it offers a rebate. For instance, when it brought to the world the motorcar, it implied that it would exact in payment something almost as dear to the heart of childhood as is the old swimming hole.  
But now comes the rebate. The blacksmith shop need not be entirely surrendered. For in Great Britain smithies still are needed. Perhaps not bigger or better ones, but at any rate more of them. The decline of the blacksmith has gone too far, it was officially declared at the annual horseshoeing contest for the West Midlands. Despite the growth of motor transport, the president of the Master Farriers' Association said, the horse still is unequalled for short hauls and general agricultural work. So a call has been sounded in Great Britain for more apprentices in this ancient profession. An honorable profession, he is said—indeed an honored one. Great musicians have harmonized it. Poets have eulogized it. Handel's "Hercules Blacksmith," Verdi's "Avail Chorus," Longfellow's "The Village Blacksmith" have added to the old story, story matched even in the epic-and-span garages of today. And, recalling the simple grandeur of that blacksmith who tolled "under the spreading chestnut tree," must not one feel that even those countries that have lost need that the British of his profession will have as much need of men like him?

**Summer's Abundance**

Perhaps nothing better illustrates the unchanging fact that there is enough of good for all than does the bountifulness of summer. Enough for all is a truth too little believed. Yet before the eyes of a fear-bound world came spring, typifying ever-renewing hope. Now illas have succeeded for cythia; unseeded buds have expanded into leaves; trees alaf and alboom have clothed the earth with such beauty and fulness and abundance as to rebuke the fear that, in human affairs, hope rightly directed can fail of fruition.

June, "the rose moon," the month of beauty and largess, brings more than a satisfying of the eye, an aesthetic delight. It comes laden with a valuable message of impartial providence, expressed in color, form, fragrance which must be felt, even by the least thoughtful, and even though it be misinterpreted.

Fields rich with rising grain, pastures adrift with daisies, meadows golden with buttercups; flags bringing grace to the rivulet's brink; primroses blooming at the sunset hour, and longing to butterfly and hummingbird their drop of nectar; trees, flowers, their needs supplied; birds and the wood creatures finding plenty to suit their requirements—all these witness to abundance.

By all this lordliness the rigors of difficult times undoubtedly are softened more than the superficial observer can begin to estimate. Since in the unfolding certainty of nature's largess there is clearly symbolized the operation of an unflinching law of order and harmony, can men doubt that there is available for the meeting of the human need an ever operating law of supply? The true solution of the problem in the world's turmoil of fear and strife, lack and limitation, is to be found, when men will seek it, by way of a more profound consideration of the lilies and in the recognition of a Providence whose wisdom is not expressed in fear and strife, but in confidence and intelligent activity and abundance.

The word "no" has been selected by a group of intellectuals as the most useful word in the English language, but isn't it just possible they should have spelled it "know," for it takes the "know" to tell when to say "no."

Much of the world's business uncertainty seems to result from the "if" in tariffs.

# Disarmament Responsibility For Its Ultimate Solution Rests Primarily With the Great Powers

Disarmament was a political problem and the responsibility for its solution rested primarily with the great powers, Sir George Perley, declared at Ottawa, Sir George, who headed the Canadian delegation to the Geneva disarmament conference, was addressing a joint gathering of the Ottawa branch of the League of Nations Society, the National Council of Women, the Women's Canadian Club of Ottawa, and the Canadian Club of Ottawa.

Efforts towards that end, he stated, had been initiated and carried on at Geneva by private conversations among the representatives of the nations chiefly concerned. Many things occurred to interfere with and prevent the success of the recent deliberations. There were the elections in France; the illness of Premier Ramsay MacDonald; the necessity of United States Secretary of State Stimson returning to his country; the precarious position of the then German Chancellor Herr Brüning which had only recently resulted in his resignation. Much had been done in spite of circumstances, Sir George said in voting his belief in the worth of disarmament and the League of Nations.

A most important resolution on qualitative disarmament had been passed at the Geneva gathering by unanimous vote to the effect that any armaments which were found to be either aggressive in character or particularly dangerous to the civilian population should be removed from national control.

The technical work of the conference was still progressing, Sir George stated, and political conversations would be resumed later when it was hoped conditions would be more propitious for further progress towards an objective which all so greatly desired.

"Education and not emotionalism must be the broad, fundamental basis for the development of international good will leading to permanent peace and to disarmament," declared Miss Winifred Kyd, Montreal, president of the National Council of Women of Canada, and one of Canada's three delegates to the conference.

Miss Kyd dealt with the preliminary work of the conference sub-committee on moral disarmament of which she was a member, having as its object an intimate study of how the public opinion of all countries of the world may be mobilized in the interests of peace. The moral disarmament committee, Miss Kyd indicated, intends to utilize the press, the radio and the moving picture in its peace propaganda work.

Referring to the presentation of the petition for world disarmament at the conference, Miss Kyd stated that the Canadian petition, bearing 500,000 names, was given a prominent place when the petitions from all countries were placed on display.

## Interest Discovery By Archaeologist

### Finds Another Secret Passage in Old Palestine City

Sir Flinders Petrie, the veteran archaeologist who has unearthed so many of the secrets of the past, is still actively excavating at Old Gaza, the great city of Palestine which was well known to Abraham. The latest announcement in connection with his work is the discovery of another secret passage leading from the city out into the desert. A great tunnel, leading under the walls, was nearly 500 yards out into the desert, was found last year, and constitutes but one of the many features of the fortified city which military experts do not yet fully understand. Sir Flinders estimates that it will take another 50 years to excavate the area yet to be explored.

Hatless Diver: "Funny, I have the feeling that I have been in some thing,"—Musketeer, Vienna.

W. N. U. 1947

## Making Final Test

### Rust-Resistant Varieties Of Wheat Being Tried Out

For the purpose of considering and advising upon the solution of urgent problems of agriculture in all the maritime divisions of Canada—the Maritime, Quebec and Ontario, the prairie and British Columbia—the newly-formed national advisory committee on agriculture of the National Research Council met in Ottawa.

Dr. H. M. Tury, president of the council, stressed the need of co-operation and co-ordination in working out national problems.

Dr. Robert Newton, acting director of the division of biology and agriculture, recounted the enormous progress made in the last decade, through research organizations working in co-operation.

He stated that rust-resistant varieties of wheat from all the agencies which developed them have been tested for final test. Those selected are being tried out at numerous points, and the resulting grain is to be studied by the divisions of the Dominion Department of Agriculture and the three provincial universities in the west.

The grain research committee since its inception has undertaken several major special investigations. Dr. Newton said that in its present final report on the investigation of the drying of grain "which should clear up all points likely to arise."

Numerous complaints regarding the effect of the combine method of harvesting on grain have resulted in the inauguration of an elaborate investigation at Glasgow.

## Scottish Market For Cattle

### Good Prices Are Obtained For Cattle Shipment From Saskatchewan

Higher prices than anticipated have been realized on the first shipment of Saskatchewan cattle to Scotland, according to a report received by the Department of Agriculture from G. S. Johnson, Canadian Trade Commissioner at Glasgow.

The Scottish market offers a good demand for choice steers, weighing from 10 to 11 hundred weight, capable of being made into prime beef with three or four months' fattening, according to Mr. Johnson. The market absorbs many of this type between April and July, in the spring season, and from September to December, in the autumn.

## Grow Fat and Laugh

### According To London Doctor Laugh Comes Second

Having believed for so long in the advice, "Laugh and grow fat," the doctor who finds that the growing fat precedes the laughter. From his study of children he has found that fat babies, the happy, good temper runs in families and girls have better tempers than boys.

Another theory goes by the board that the fat man is good tempered because he is too stout either to quarrel or run away. He just can't help his happiness and serenity.

## Funds Quite Safe

Business was over for the day and the two partners had adjourned for a game of snooker in a nearby hall. As the evening was nearing its end and they were preparing to go home one of them clapped his hand against his brow and emitted a shrill scream.

"We're ruined! We're ruined!" he shrieked. "I just remember that I left the safe door open when we closed the shop."

"Oh, that's all right," replied his business mate easily. "We're both here, ain't we?"

B.C. Salmon  
British Columbia's output of canned salmon in the five-year period, 1927-1931, averaged 1,540,744 cases annually. Despite the fact that market conditions resulted in the 1931 output being much below normal, the average production in 1927-31 was only 22,000 cases below the average for the preceding five years.

In 1339 half of England's troops were archers, and by 1560 practically all of the archery troops were mounted. The men used a bow about five feet in length, and a three-foot arrow.

Springe laid a spoon on a French inventor's device to be clipped to the edge of a kitchen utensil.

## Refitting Old Vessel

### Clipper Ship Built In 1870 Will Sail Again

The day of wooden ships and iron men has not yet gone by. The bark "Coriolanus," once "Queen of the Jute Clippers," has sailed for Bath, Me., to be fitted out in the same powerful square rig in which she established a sailing record between London and Calcutta years ago.

Refitted, she then full rigged clipper ship will sail out of Boston to again engage in trade with Africa.

She has sailed under six flags over the seven seas. Her growl has churned waters of the Arctic and the tropics and she has survived hurricanes and fire at sea to become last of the old New England clipper ships still in service.

A syndicate headed by C. Nelson Rogers of Boston recently purchased her and she will return to that port immediately after her new spars have stepped into place at the Bath Works Bath, Me. At Boston she will take on a cargo for a trading voyage to Africa.

She was built at Dumbarton, Scotland, in 1870, and was awarded a gold medal by the Honorable Shipwright's Guild of London for the most beautiful lines of any clipper ship then afloat. The "Coriolanus" established a record of 69 days between London and Calcutta and the record has never been lowered by a sailing ship.

In recent years she has engaged in the packet trade between New Bedford and the Cape Verde Islands.

## 472

### CUTE ONE-PIECE DRESS MADE FOR JIFFY

Has bloomers to complete it. And wouldn't you, if you were a girl, love this little outfit. It is light blue linen with white dots, white contrast and white belt button trim. The scalloped, caped sleeves are cute little. Don't you think? And it's such an easy dress to make and launder. The matching bloomers are gathered into knee bands. They have elastic waists. Size 4 requires 1 1/2 yards of 35-inch material with 1 1/2 yards of ribbon. This darling play outfit can be made of sturdy gingham in checks, stripes or plain pastel with white piping trim. Bateau prints, dainty prints, pique, percale and dotted swiss are suitable and popular for this cunning model. Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coupon carefully.

## Cost Of Horse Labor

### Records Show Cost Of Work Horse At Six Cents Per Hour

The Superintendent of the Federal Experimental Station at Indian Head, Sask., has provided some interesting and timely information about the seasonal cost of work horses under prairie conditions.

From the records kept in connection with seven head the average cost of feed for the season of active farm operation was \$22.15, while the average number of hours worked was 1,849, which represents a work value, on the basis of 6 cents per hour, of \$13.08.

## SHU Ding Good Business

That the horse has not been replaced by machinery on modern farms is shown by the fact that the Canada Wood Specialty Company of St. Marys, Ontario, is now filling an order for 75,000 curry comb handles. The curry comb is used principally for cleaning horses, though quite a supply goes to farmers. An average of about 500,000 are sold annually in Canada.

Arctic can be used advantageously in wood preservation processes.

## QUEEN MARY ADMIRES BEAUTIFUL SHOW

One of the annual events in London which Her Majesty never misses is the Chelsea Flower Show, where some of the most beautiful floral displays in the British Isles are on view. This photograph was taken as Her Majesty left the Royal Palace to admire a particularly attractive corner of the show.

Will Use Rubber Bayonets

Sixteen hundred bayonet bayonets, exact replicas of those used by British troops in a battle with Inkerman in October, 1854, are being manufactured by a British firm for use in a Crimean fighting scene which will be staged at the Aldershot Tattoo, to be held at Rushmore House. The bayonets are said to look exactly like the real thing with their silver-grey blades and black handles.

It took George Forbes, of Ripon, Wisconsin, only two weeks to build a seven-foot model locomotive, in which steam pipes and rods are of metal.

# Emissaries Of Scottish Commerce Receive Splendid Reception On Their Recent Visit To Canada

When the emissaries of Scottish commerce and industry came to Canada recently, they found the opportunities for developing markets here so much more promising than was anticipated that some fifty per cent. of them extended their stay from the scheduled five days—May 16 to 21—to several weeks. Homeward bound, therefore, the Scottish Trade Mission mustered a greatly reduced personnel, some of those who remained behind having decided to traverse the Dominion to Vancouver, others, to further cultivate and solidify valuable connections made in the St. Lawrence port city.

Nor did all the exhibits so carefully selected and arranged to impress the Canadian public with the quality of Scotland's products return to the warehouses of Glasgow. A number of the exhibitors made direct sales of all the stocks they brought with them for show purposes. The representative of Mr. Robert Chapman, dog fancier, set the pace in this field, disposing of the dozen aristocratic Scotch terriers which he brought with him on the first afternoon that the exhibition was open to the public.

Direct sales were of course a small factor in the success of the Trade Mission, nor did orders booked constitute the most significant feature of the venture from the point of view of the Government Trade Commissioners. The visiting trade exhibitors, all keen business men trained in a hard school, were quick to realize that the Dominion held for them not only opportunities for future business, but that Canada was a potential buyer worth courting.

"Scotland has found that the day of the buyer going to the seller is past and that the seller must come to the buyer," commented Mr. A. M. Wiseman, British Government Trade Commissioner at Toronto, when asked his opinion as to the most significant result of the Trade Mission visit. But the discoveries were not only the general public but regarded the exhibition primarily as a colourful spectacle—but hard-headed business men who visited it to weigh values both of goods and men were convinced that Scotland produced certain commodities in higher quality than can Canadian producers, at present at least, and that these commodities had a legitimate demand in the Canadian market without unduly prejudicing native products. They heard that if goods continued to sell from produce, raw materials and certain manufactured goods to Scotland, they should also be ready to buy those goods from Scotland.

The old land is particularly suited, either through natural conditions such as climate, or through the long experience of its craftsmen handed down from father to son for generations.

Mr. James Craig, president of Colgate, who came to the exhibition as a visitor, emphasized this last point in an address to Montreal business men gathered to welcome the emissaries of Scottish commerce.

"The trade between Montreal and Glasgow cannot continue a one-way street," he stated. "All that Scotland needs is a reciprocal trade. Canadians must realize that they have to buy in Glasgow if they would continue to sell there."

Those in charge were not merely business men, anxious to seize on any possibilities of a sale. They were representatives of the old historic Scotland, eager to tell her romantic story, to welcome those of Scottish descent, and they were legion, and gave their news of home. Afternoon and evening they were besieged by men and women who sought help in locating the tartan worn by their forefathers. They became the centre of impromptu reunions of Scotch-Canadian, many of whom allowed the highest accent to regain temporarily a dominance in their speech which it had lost long years ago.

Referring to this cordial atmosphere, a remark made by Mr. Wiseman, British Trade Commissioner at Toronto, who was sent over to Scotland to cross the ocean with the Trade Mission and was closely associated with it throughout its stay here, is significant.

"Had the mission come here purely on a hard business basis it would not have met with anything like the success it attained," he commented in the course of a personal interview. "It was lifted to a higher plane by the spirit in which it set out and the spirit in which it was received here. It may be said that the spirit of Scotland was strikingly personified in the honorary president of the mission, His Grace the Duke of Montrose, whose presence contributed greatly to the splendid impression left in Canada by the Scottish Trade Mission."

On its long and eventful trip to the island of the ancient clan of Graham and wearing, among other insignia, that of the Knights of Nova Scotia, the party extended their stay from the scheduled five days—May 16 to 21—to several weeks. Homeward bound, therefore, the Scottish Trade Mission mustered a greatly reduced personnel, some of those who remained behind having decided to traverse the Dominion to Vancouver, others, to further cultivate and solidify valuable connections made in the St. Lawrence port city.

## Norfolk Fishermen Are Superstitious

### Claim Wrecking-Vane Depicting Crow Brings Bad Luck

Mariners are notoriously superstitious. The local governing council of Cromer, the agreeable little town on the Norfolk coast, is respecting the superstitions of the local fishermen in regard to a weather-vane depicting a large crow which was erected recently by the council. The fishermen say the weather has been consistently bad since the vane was put up, and they have not been able to catch so many crabs and lobsters. The crow, they assert, is "a bird of ill-omen," and an emblem of death.

## Standardized Automobile Insurance

### New Plan Comes Into Effect In Ontario This Year

Standardization of automobile insurance policy forms becomes effective in Ontario September 1, the provincial insurance department announced. The insured motorist will be automatically responsible to his victims under the new regulations. The department says that every driver's policy shall be liable to the victim of an accident under all circumstances. If the policy holder has violated the statute, the company must seek redress against him.

## Encouragement Needed

### To Attract Incoming Cargo To Port Of Churchill

The opening of ports on the Gulf of Mexico did not hurt, but rather helped, United States Atlantic ports, and there is no reason to believe that the opening of Churchill will injure any other Canadian port. Unfortunately, there are always short-sighted people who do not see it that way, and Churchill will continue to receive its share of publicity from Western Canadian sources. To offset that publicity some special encouragement should be given to the incoming cargo to Churchill—Winnipeg Tribune.

## Gravity Comparisons

Measurements of the force of gravity at various points throughout the country are made by the Dominion Observatory, Department of the Interior, Ottawa. This involves the measurement of the period of a pendulum to one ten millionth part of a second—a decidedly delicate operation. Results of these investigations are intended to throw light on the nature of the upper layers of the earth's crust, and are also closely related to geological formations and structures, and such processes as denudation and mountain-building.

Two New York architects have designed nine-story apartment houses supported on pillars, leaving open space for children's playgrounds on the street level.

"What do you say to your wife when you go home late?" "I say 'Good Evening and she says 'Good Night, Hamburg."

# The 40th Anniversary of of "SAK" TEA Finest quality for 40 years has built the largest sales in North America.

## The Imperial Economic Conference

The Imperial Economic Conference, shortly to be convened at Ottawa, is unquestionably one of the most important gatherings ever called in the history of the British Empire. In fact it may easily prove to be one of the most important in the economic history of the whole world, because, whatever decisions it may reach will affect not only the British Commonwealth of Nations, but all nations.

There will be assembled together all the leading governing statesmen of the Empire, supported by the strongest possible groups of financial, economic and commercial and other experts that the Old Country and each of the Dominions can gather together. For months past these statesmen and experts, assisted by small armies of lesser experts and advisers, have been compiling and studying trade and monetary statistics, weighing the effect of this and that, probing as never before into the productive capacities, primary and industrial, of their countries, the natural resources, the state of employment, the requirements of their respective populations, the probable and possible trend of future developments and the extent thereof, and the effect of existing policies and possible future policies upon all these matters which enter into national and Empire growth, prosperity and strength.

And the object of it is to evolve, if possible, new policies acceptable to all parts of the Empire, and which will prove of mutual advantage to all and having as their objective the encouragement and development of a larger volume of inter-Empire trade. This means that the possibilities and the requirements of each part of the Empire must be ascertained, must be appreciated by all the other parts, and the whole tied together to the advantage not only of each component part, but of the whole.

It becomes at once self-evident, therefore, that one of the major tasks confronting the Conference will be to find ways and means of removing existing barriers to free trade and free conditions between one part of the Empire and other parts, to the mutual advantage of both, and without, in the process, working injury to any part. While the Old Country representatives, and the representatives of each of the Dominions must, of necessity, give particular heed to the interests of their respective nations, it is an essential to the success of the Conference that this be done in no narrow, selfish spirit, but in such a way that while benefitting their own country they likewise confer benefits on the sister nations.

This does not mean that the spirit of approach to the intricate problem calling for solution should be one of making sacrifices; rather it should be in the direction of striving for mutual advantages. In fact the word "sacrifice" should be entirely absent from the Conference, while the term "mutual advantage" should be very much in the fore. In a word, the dominating ideal should not be that expressed in such slogans as "Britain First," "Canada First," "Australia First," but, on the contrary, it should be an adaptation of the motto of the Three Musketeers, "All for One, and One for All."

Along with the removal of existing barriers, and a mutual understanding or agreement that no new barriers will be erected, there must naturally develop policies designed to make ever easier the flow of trade into and out of all parts of the Empire to all other parts. This may involve the ultimate creation of a new system or method of monetary exchange, even an Empire currency. It would seem to be essential that some system be developed whereby the currency of any one part of the Empire should always be on a par with the currency of all other parts; in a word, that the same monetary standard should apply at all times throughout the Empire, and that, for example, at no time should the Canadian dollar be at a discount with the British pound, or vice versa. The guarantee of such a standard would undoubtedly be of tremendous assistance in establishing and maintaining inter-Empire trade at a maximum, removing, as it would, much of the uncertainty and loss which now prevails.

If the forthcoming Conference can achieve a measure of success along these and other lines having the same general object in view, the beneficial effect upon all parts of the British Empire will be almost incalculable. Not only so, but no other trading nations could afford to ignore such a development. The breaking down of trade barriers within the Empire would be the beginning of a reversal of the suicidal policy into which the world has drifted and which has resulted in an almost complete paralysis or destruction of international trade and commerce, ending in the present state of world depression, unemployment, suffering and hardship.

Canadians may well be proud if, from their national capital, there is evolved a new economic policy for the whole of the world. That this should emerge from the Conference should be, and we believe it is, a fervent desire and hope of the Canadian people irrespective of any minor political differences of adherence to school of economic or fiscal thought.

### Only Three In Existence

**Silk-Cotton Tree Attraction For Tourists At Nassau.**  
Among the many attractions for American tourists at Nassau, in the Bahama Islands, is the famous silk-cotton tree, which rises seemingly like a pyramid, then at the top branches off in flame shoots. The trunk of the tree flares out curiously into ribbon-like trade barriers within the Empire would be the beginning of a reversal of the suicidal policy into which the world has drifted and which has resulted in an almost complete paralysis or destruction of international trade and commerce, ending in the present state of world depression, unemployment, suffering and hardship.

There are two kinds of people. Those who aren't hateful by nature, and those who speed up when somebody tries to pass.

The man who says the right thing at the right time is rare. But not half so rare as the man who says nothing at the right time.

## Pains In Stomach and Bowels So Bad Would Have To Sit Down

Mrs. C. Landry, Montreal, N.B., writes: "I can certainly recommend Dr. Fowler's Extract of Wild Strawberry for cramps or pains in the stomach and bowels."  
"Last Summer I had such awful pains in my stomach, and lower part of my bowels at times, that I would have to sit down. I took 'Dr. Fowler's' and was soon relieved."  
"When my children were small I always kept a bottle in the house and it helped them wonderfully whenever any of them had bowel complaints."

### Island Prison For Doukhobors

D'Arcy Island, Near Victoria, B.C.  
To Become Place Of Banishment  
D'Arcy Island, about 20 miles from Victoria in Haro Straits, will become the home of some 300 Doukhobor men, sentenced to serve three years each for mutiny pending.

Announcement of the creation of the island prison settlement was made yesterday, thus, despite attorney-general, on receipt of announcement from Ottawa of the decision, The Dominion government will almost immediately commence erection of such additional buildings and other accommodations as may be required.

The Doukhobors will be provided with agricultural implements so that they will be able to raise food-stuffs for their own maintenance.

D'Arcy Island was the site of a tiny island many years ago, but it has been closely inspected by medical officials, and has been given a clean bill of health.

It is understood that the Doukhobor women arrested, also numbering some 300, will be placed in a number of Dominion institutions in eastern Canada.

A total of 584 adults have been arrested. Three hundred and fifty children, aged from one to sixteen, British Columbia institutions. This total of 933 persons, men, women and children, are affected by the action of the Dominion and British Columbia governments in their efforts to establish peace in the port of the interior of the province in what the Sons of Freedom sect of Doukhobors have lived. The countryside there has been in a state of unrest for years, and the Doukhobors have been bombarded and consequent means to life and property.

### Remarkable Success Of English Surgeons

Girl Walks After Spine Built Up By

As the result of a remarkable operation—the first of its kind in England—a girl, who for eight years was a cripple, is now walking. She is Miss Jessie Eaton, 17-year-old daughter of Mr. and Mrs. William Eaton of Duke Place, Woking, Surrey. The age of nine Miss Eaton was a lively child, but her spine became affected by a tubercular disease, and for three years she was a patient at the Mansfield sanatorium.

She made progress, but a fall after she had returned home aggravated the disease, and she was again unable to walk.

The case was brought to the notice of the Duchess of Portland, and Miss Eaton was removed to the Duchess's Orthopedic Hospital at Harlow Wood, Nottinghamshire, where the operation was performed by Mr. Mallin, the senior surgeon, who used a piece of bone from the left foot to build up the spine.

Miss Eaton is now able to walk normally except for long distances.

She has since visited Harlow Wood to show the success of the operation to 40 doctors from all parts of Europe.

### Arctic Expedition

S.S. Ungava To Carry Mail To Mounted Police Posts

This year's expedition to the eastern Arctic, Baffin Island and Hudson Bay will be undertaken in the S.S. Ungava, which will sail from Montreal in July. The vessel will carry mail to Mounted Police posts and missionary stations, and will convey relief of personnel, stores, etc. All points in the eastern Arctic, to as far north as Bache Peninsula, the most northerly point and customs port in the world, will be visited in the course of the Ungava's voyage.

### Slightly Mired

The president of a certain university was preaching on "Faith and Doubt" in a declamatory head, told his auditor: "You have blind faith in the physician. He gives you medicine and tells you to take it. 'You're not a real son; you're to die and die!' Almost equal to this is the story of the minister who solemnly said to his congregation that 'Many persons have one eye on heaven, while with the other they are listening to the gossip of the earth!'"

### Seasoned Advice

Dr. A. Gaudichet, of Paris, makes use of principle physiology, which injects acids and seasoning directly into the blood streams of chickens. He says this aids the favoring in perspiration, the meat and bone is necessary on cooking the fowl.

A German scientist states that loss of 40 to 50 hairs from the head in a day is the "normal" limit.

Automobiles are owned on 58 per cent of the farms in the United States.

### Death Of Pioneer

Col. Herbert Swinford, Veteran Of Red River Rebellion, Dies In Winnipeg

Col. Herbert Swinford, veteran of the Red River Rebellion of 1870, and the North West Rebellion 15 years later, died recently in Winnipeg at the age of 83.

Born at London, England, he came to Canada with his parents as a boy and jumped into uniform with the Wellington Rifles at Guelph, Ont., when Lord Wolsey was forming the expedition.

Following service, Col. Swinford operated steamboats on the Red and Assiniboine Rivers here. Later he was appointed general agent for the Northern Pacific Railway in Winnipeg. For several years he occupied the same position at Vancouver and returned to Winnipeg only six months ago.

### Study Polar Phenomena

Saskatoon Professor To Be Member Of Party To Be Located At Chesterfield Inlet

In the special study of polar phenomena to be conducted in 1932 and 1933, in which over 100 meteorological stations will take part, Saskatoon Professor Dr. J. G. Baker, at one time an instructor in physics at the University of Saskatchewan, will be a member of the party, which is under the direction of Frank Davis, at one time an instructor in physics at the University of Saskatchewan.

Dr. Baker, a physicist and physicist of the University of Saskatchewan, will be a member of the party, which is under the direction of Frank Davis, at one time an instructor in physics at the University of Saskatchewan. Dr. Baker was a member of the Byrd Antarctic Expedition and spent a year making weather observations there. He is well known in Saskatoon and was married here last summer.

### No Fool-Proof Rule

Mushroom Hunter Must Depend On His Own Judgment

The public's desire for a fool-proof rule by which to distinguish an edible mushroom from a poisonous one is named to unfulfillment, Dr. Fred Seaver, curator of the New York Botanical Garden, said in a lecture at New York.

"There is no such rule," he stated. "One must learn to know the mushrooms and to distinguish them as you would your friends from your enemies."

Dr. Seaver said that to the mycologist, or student of fungi, there was no significance in the terms "toadstool" and "mushroom."

"A mushroom is an edible toadstool or a toadstool is a poisonous mushroom, whichever way one may wish to put it."

### Wanted Many Years

Woman Graduated Over Half Century Ago Just Received Diploma

An 86-year-old woman, who waited 65 years for her diploma, received it at Bates College commencement. The woman was Mrs. Sibyl Chase Ballard, of Minneapolis, Minn., who completed her course at Bates in 1847, but failed to receive her degree because the college did not then confer on women.

Bates now is a co-educational institution.

**Step the Cough.**—Coughing is caused by irritation in the respiratory passages and is the effort to dislodge obstructions that come from inflammation of the mucous membrane. Treatment with Dr. Thomas' Eclectic Oil will ally the inflammation and in consequence the cough will usually stop. Try it and you will be satisfied.

### Bully Taken In

A man was persuaded by a dealer in a friendly friend, who examined it, which, he was assured, was of great value.

The collector showed his prize to a friend, who examined it, which, he was assured, was of great value.

"How much did he hook you for?" "Seven guineas."

"Well, well! And he didn't throw in the marmalade."

### Teething

"Baby's Own Tablets take away that teething fever," writes Mr. Alfred Bungay, North Sydney, N.S. Effective also in relieving colds, coughs, constipation. Children like them.

Absolutely SAFE.—See analyst's certificate in each 25c package. 25c per box.

### BABY'S OWN TABLETS

### Earth Upheaval

Contour Of Island In Bering Sea Is Changed

An isolated Bering sea island, populated only by a herd of immense sea lions and great flocks of birds, Bogoslof, has given Father Bernard R. Hubbard what he declares to be proof of how volcanic islands "grow."

A great steaming mound of lava, which was a message sent to several, has been pushed out of the earth and has changed the colour of one section of the island completely. The mass is apparently increasing in size.

The "growth" is taking place, the Santa Clara University professor messaged, at a place where formerly a sheltered harbor existed.

His observations were made on a voyage from Bristol Bay with his party on the motorship "Polar Bear." Despite storms and high seas, a successful landing was made.

### 40th Anniversary Of Saada Tea Company

Forty years ago this month in an immense building on the corner of Spadina Street in Toronto, the Saada Tea Company packed its first pound of tea. Since then, in 1892, by the Honourable Peter Larkin, the business has grown very rapidly and in 1895 a branch had been opened in Montreal. Two years later the United States market was invaded and offices opened in Buffalo. To-day, the Saada Tea Company has 150 offices in the world, devoted exclusively to the packing of tea, stand as monuments to the founder, located in Toronto, Montreal, and in Boston.

The Canadian market was then controlled by China and Japan teas and largely sold being of inferior quality. These teas were of poor quality. These teas were of poor quality. These teas were of poor quality.

### A Prison De Luxe

New York Has Last Word In Detention Houses

New York papers gave a lot of space the other day to the opening of a new prison. It was, in fact, a considerable social event, and one Gotham reporter wrote that "the list of guests would do credit to one of society's best publicized debutantes."

This, it appears, is a sort of prison de luxe. Erected on Manhattan's West End, it is to be a house of detention for women, and, judging from the description, it will never be a prison, but a house of detention for women, and, judging from the description, it will never be a prison, but a house of detention for women.

Douglas' Egyptian Liniment is a quick relief remedy for Hot Rods or Thrush. Four or five applications are usually enough.

### Consider the Dandelion

It never fails to arrive on time. With history, its environment, it gets to the top.

Whether in a lawn or a hayfield it rears its head above all surrounding vegetation, clover, corn, etc.

It does not submit to circumstances. It overcomes them.

It refuses to accept defeat. If cut down it rises again.

It thrives on difficulties.

It is a moral proof that "yellow" is not the color for a quitter.

In 1929 the total number of deaths from cancer was 111,569.

**YOU WILL BE GLAD YOU TRIED IT**  
If you must wean baby to a bottle and are anxious to know if he will thrive, use Eagle Brand. It protects him from digestive troubles. Baby Brand has proved itself reliable for twenty-five years. Baby Brand is a baby's food. Write for "Baby Welfare," using coupon below.

CONDENSED MILK

### Reduced Freight Rates

Lower Rates For Livestock In Quantities Less Than Full Carload

Reduced freight rates for the movement of livestock in quantities less than full carloads are being established by the railways, according to an announcement made by the Canadian Freight Association. Hereafter a horse, sheep or pig will be charged to ship or pay for 20,000 lbs. in the case of cattle, and 10,000 lbs. in the case of hogs and sheep in order to ship under the carload rates.

The new schedule will provide for additional rates subject to minimum weights of 12,000 lbs. and 6,000 lbs. in the case of cattle, and 1,000 lbs. and 6,000 lbs. in the case of hogs and sheep. The rates for the smaller carloads are somewhat higher than for full carloads, but they will give the shipper, who has not sufficient stock available to make up full car, an opportunity of getting the smaller quantities to the markets by rail.

The new rates will apply to market centres from points in the prairie provinces within a radius of 200 miles.

It will be permissible for cars to be shipped at one intermediate point to transit for completion of load at a charge of \$3.00 per car. In making the announcement, the Canadian Freight Association stated that the new rates are in the nature of an experiment for one year.

### Passengers Mostly Men

Family Trips To Europe Are On The Increase

When a liner from the United States docked at Liverpool the other day there were 1,066 passengers, and it was remarked by officers of the boat that nearly all were men. One of the male passengers offered an explanation, stating that most of the men were just taking a week or ten days in Europe for a little holiday and some of them were looking after a little business at the same time. It had become necessary to leave the women at home and family trips to Europe were off for the present.

### Buy Locally

Keep in mind the fact that when you are in need of anything it pays to give that business to your local merchant. If your purchase should for any reason prove unsatisfactory you know where you will find him to get the mistake rectified. The door-to-door salesman is here today and gone tomorrow, and has no stake in the municipality. Why patronize him.

### Pay For Knowledge

An increase of 30,000 readers in Toronto Public Library, presumably due to unemployment, is a sufficient answer to the frequent query, what would workingmen do with their leisure shorter hours of work would give them. The workingman is just as eager for knowledge as the millionaire.

Unless worms be expelled from the system, no child can be healthy. Mother Gray's Worm Expeller is an excellent medicine to destroy worms.

### DR. HAMILTON'S PILLS

HEADACHE  
INDIGESTION  
BILIOUSNESS  
CONSTIPATION

The penguin owl of the Rocky Mountains region is not much larger than an English sparrow.

Biam has a new tax on salaries.

## THE HOUSE OF DREAMS-COME-TRUE

BY  
MARGARET EDDLES  
Author of  
"The Splendid Folly," "The Herald"  
Hodder & Stoughton, Ltd., London.

CHAPTER XXIII.—Continued.

"Then, to please me—or for nothing else in the world, if you like, but because I ask it—will you let things stay as they are for a few weeks longer? Just that little while, Nick? We're going to London next week. That'll make a break—bring us all back to a calmer, more everyday outlook on things. Will you wait? Sir Adrian may never strike Claire again. And it wouldn't be fair—just now, at a time when she is feeling horribly bitter and humiliated from that—that I should—ask her to go away with you. Give her a fair chance to decide a big question like that when things are at their normal level—not when they are worse than usual. To ask her now would be to take advantage of the feeling she must have, just at this moment, that life is intolerable. It wouldn't be playing the game."

He made no answer, and Nick waited with increasing trepidation. She was sure now that she could hear footsteps. Someone had mounted the stairs and was coming along the corridor towards her room.

"Nick!" The low, agitated whisper burst from her as the steps halted outside the door. "Promise me!"

## You can cook Vegetables AT ONCE

in the same saucepan by using GANAPAR

Do each vegetable up in its own bag of Ganapar Cookery Parchment. There won't be any odor, not even from cauliflower. All the food value and flavor will be retained. And you use only one burner turned low for cooking. The flavors will not mix!

Do the same with boiled or steamed fish. You'll be delighted with the results. No fishy odor in the kitchen. No saucepan or kettle to clean up. When roasting meat, line your pan with Ganapar. Fat and juices won't burn. No more scraping or scouring of the pan afterwards. You can use Ganapar repeatedly by simply rinsing it off and hanging up to dry. It is safe, healthy, and makes a perfect dish cloth. Silky, strong, and doesn't spread lint. Made by the makers of the famous PARASANI Heavy Waxed Paper in the Green Box.

### Special Offer

Most grocers, druggists and department stores have Ganapar on sale. But if yours hasn't, send this coupon direct to the makers and you'll give you a new and unique booklet entitled "Leflovers", containing one hundred recipes as a bonus for your trouble.

Applesauce Paper Products, Ltd., Hamilton, Ontario  
Enclosed find 25c for which please send me one full size package of Ganapar Cookery Parchment and your 100 recipes for "Leflovers".

40

that we weren't meant to run away from things—hard things. If a man and a woman marry, they must accept their responsibilities—not evade them."

So absorbed was she in her trend of thought that she never realized how directly this speech must strike at Blaise himself. His face changed slightly.

"You're right, of course," he said abruptly. "You—generally are. And if all women were like you, it would be easy enough."

His eyes dwelt with curious intensity on the pure outline of her face, on the parted, tenderly curved lips, and the golden eyes with their momentary touch of the idealist and the dreamer.

It seemed as if the quiet intensity of his regard drew her, for slowly she turned her head and met his gaze, flushing suddenly and faltering under it. The consciousness of him, of his nearness, swept her from head to foot, and it seemed to her as though now, in this moment, they were in closer touch, nearer understanding, than they had ever been.

She stood very still and quiet when he had gone, realizing in every quivering nerve of her that whatever the future might bring—even though Blaise might choose to shut himself away from her again as in the past, and the thrilling veil between them rise as high as heaven—she knew now, without a shadow of doubt or questioning, that she loved her.

In the burning attitude of a single word, in the pressure of passionate, renouncing lips, the assurance had been given, and nothing could ever take it away again.

She spread her hands, palms upward, and looked at them curiously.

### CHAPTER XXIV.

#### An Unexpected Meeting

"Have you been very bored, Nick?" The week in London had nearly run its course, and Lady Anne's eyes begged charmingly for a negative. Nick accorded it with a smile.

"I'm never bored with you, madam; you know that," he said. "And how else is it possible to be so amusing. One comes across such queer types. There's one here this evening has been intriguing me enormously at a little table by herself. Do you see her? A tall, rather goggle-looking being—kind of cross between the Queen of Sheba and Lady Carleton-Borgia."

Lady Anne threw a veiled glance in the direction indicated.

"Yes, she's a very handsome woman, obviously not English." Her eyes travelled onwards towards the door. "It was Blaise and Joan who hurried by," she added impatiently. "They're taking an unconcomical time to dress."

The two latter had come in late from a sight-seeing expedition undertaken on Jean's behalf, and had only returned to the hotel just as Lady Anne and Nick were preparing to make their way in to dinner.

"For such a deliberate matchmaker, you're a lot too impatient, madam," Nick commented. "Teasingly—that they should have stayed out together until the very last moment ought to have pleased you immensely."

Lady Anne made a small grimace.

(To Be Continued.)

## Fish and How To Cook It

Dominion Department of Fisheries Issues New Booklet Printed in Both French and English

Copies of the new book, "Fish and How To Cook It," which has been issued by the Dominion Department of Fisheries, are now available either in French or English at a price of ten cents each. The booklet has been prepared under the direction of Dr. E. J. Spence, specialist in fish cookery, who is now on the department's staff. It gives authoritative information and is designed to meet the needs of the average Canadian household. Persons wishing to receive the booklet should write the Deputy Minister of Fisheries, Ottawa, enclosing ten cents for each copy required and stating whether the English edition or the French edition is desired.

### Trying Out New Plan

Celery To Be Cultivated In Canada For Bermuda Growers

A plan to cultivate celery in Canada between June and October, transplant it in Bermuda and harvest it for export to Canada in February, has been made known by W. F. Evans, marketing adviser to the Bermuda Department of Agriculture. It is understood that an export is coming to Montreal to plant the first seeds.

The scheme would advance the opening of celery shipment from Bermuda to Canada by two or three months.

## THE RHYMING OPTIMIST

By Aline Michale

### THE GIFT OF SONG

Just sometimes hope's rainbow is gleaming  
The bridge we have built out of dream  
Just sometimes each bit of our plan  
Works out in accord with our scheme;  
Then how gladly we go through a world all aglow  
Through the sunshine of happiness gleaming.

Some seasons no wind is unkindly;  
Every seed that we plant comes to bloom,  
And the way we have trodden so mildly  
Leads us up from the shadows and gloom.

Leads us into the light  
Where we know life is bright  
And finds bliss in its wine-sweet perfume.

Just sometimes we give thanks at the ending  
Of hours, or sorrow, or doubt,  
Or just sometimes we pause, reverent  
Our blessings, with hearts grown devout.

Then we taste of a joy  
Without dread or alloy  
In the splendor that rings us about!

### Shipyard To Close Down

Earle's shipbuilding yard at Hull, England, one of the oldest organizations of the kind on the east coast, is closing. During its 80 years of existence it has produced nearly 700 vessels of all classes, including 17 ships for the British navy, and a countless quantity of marine engineering.

### Honor the Dead

The graves of Redcoats killed in the battles of Concord and Lexington 157 years ago are not forgotten. Annually delegates of the British Naval and Military Veterans' Association of Massachusetts make a pilgrimage here to place wreaths on them.

### Scotland has a safe-driving campaign.

Animal diseases cost farmers of England \$100,000,000 last year.

Try Lydia E. Pinkham's Vegetable Compound

### Women Outnumber Men

A fifth of the total population of Scotland is concentrated in Glasgow, the decennial census figures, now made public, show. The population of Glasgow is given as 1,088,461, with 107 females for each 100 males. In Edinburgh the women outnumber the men by 12 to 10.

### Gried Herself to Sleep

All were out . . . splitting headaches make life hideous every month. The trouble . . . Lydia E. Pinkham's Vegetable Compound relieves promptly.

### Painting Eiffel Tower

Engineers Think Structure May Become Menace In Twenty Years

The Eiffel Tower is forty-five tons heavier than it was last year. That is the amount of paint that forty-five painters are applying to the giant steel skeleton, still the third highest structure in the world. Only the Empire State and Chrysler Buildings in New York are taller.

Paris engineers vent over the tower on an annual inspection and found it in good shape. Several engineers say that it can stand for another century before it will have been worn out by the elements, but most engineers agree that it may become a menace in twenty years.

By 1950, Eiffel Tower may have to be torn down or rebuilt, the process of rebuilding being such a costly and difficult task that Paris may easily lose the most visible feature of its skyline.

The base of the great tower is stronger than its top and this is explained by the fact that the top sways in high winds and twists the metal.

The tower is being painted yellow and brown, which all Parisians agree is not pretty. Engineers say that paint of those two colors will increase the life of the tower. One American firm offered to paint the tower with aluminum paint just for the publicity, but this was opposed.

Wise and experienced mothers know when their children are troubled with worms and has no time in applying Miller's Worm Powder, a most effective vermicide. It is also in clearing the system of worms and restoring those healthy conditions without which there can be no comfort for the child, or hope of robust growth. It is a most trustworthy worm exterminator.

### How "Milliner" Originated

Word Was Formerly "Milaner" Given To Milan Merchants

Milan, in Italy, was once the great center of trade in silks, velvet and other fine wearing apparel, and any merchant dealing in Milan goods was known as a Milaner. In addition to hats and gowns, gloves and stockings, the original Milanese also dealt in glass, cutlery and tinware armor. As trade increased, more specialized, however, the Milaner, or milliner as he gradually became known, confined his attention to women's wear, and finally to hats alone.

### Working Every Day Now.

I had to stop working and stay in the house. I was two weeks in bed, when a friend advised me to try Dr. Williams' Pink Pills. I gave the Pills a fair trial, and I feel good and strong now, and I am working every day. I have never been troubled with rheumatism since. I recommend them for anyone suffering from Rheumatism, Lame Back, Sciatica, Rheumatism and kindred ailments that blood very rapidly.

### Rheumatism So Bad He Had to Quit Work

Albert Berger Not Bothered Since Relieved by Dr. Williams' Pink Pills.

"I was terribly bothered with a rheumatism in my back and legs. I tried many remedies, but nothing helped. I bought Dr. Williams' Pink Pills. I gave the Pills a fair trial, and I feel good and strong now, and I am working every day. I have never been troubled with rheumatism since. I recommend them for anyone suffering from Rheumatism, Lame Back, Sciatica, Rheumatism and kindred ailments that blood very rapidly.

Alaska seal herd is estimated at more than 1,000,000 animals.

### Little Helps For This Week

"Come unto Me, all ye that labour and are heavy laden, and I will give you rest."—Matthew xi. 28.

Come, said Jesus' sacred voice, Come and make my path your choice; I will guide you to your home, Weighy pilgrim, hither come.

Sinners, come! for here is found Balm that does for every wound, Peace that shall end all strife, Rest eternal, sacred, sure.

Anna Laetitia Barbauld.

Christ's invitation to the weary and heavy laden is a call to begin life over again upon a new principle. "Watch My way of doing things," He says; follow me, take life as I take it; be meek and lowly, and you will find rest."—Henry Drummond.

### Relieve Asthma At Little Expense.

Thousands of dollars have been vainly spent upon remedies for asthma and asthma, if ever, with any relief. Dr. J. D. Kellogg's Asthma Remedy, despite its smallness of bottle, costs so little that it is within reach of all. It is the national remedy for asthma, far removed from the class of doubtful and experimental preparations. Your dealer can supply you.

### Buckheat Controls Weeds

Among the many uses of buckheat as a field crop perhaps none is more important than its value as a weed destroyer, states crop specialists of the Dominion Experimental Farm. Its value in this connection arises from its quick germination and rapid growth. The fact that two crops of buckheat can be raised during one year usually makes it particularly effective in the eradication of even such difficult weed problems as those presented by the Sow Thistle and Quack Grass.

### Working Every Day Now.

I had to stop working and stay in the house. I was two weeks in bed, when a friend advised me to try Dr. Williams' Pink Pills. I gave the Pills a fair trial, and I feel good and strong now, and I am working every day. I have never been troubled with rheumatism since. I recommend them for anyone suffering from Rheumatism, Lame Back, Sciatica, Rheumatism and kindred ailments that blood very rapidly.

## GOVERNMENT IS SUSTAINED IN MANITOBA VOTE

Winnipeg, Man.—Hon. John Bracken will be Prime Minister of Manitoba for another five years. The general election resulted in the return of government candidates on an average of one.

The result of the voting puts the stamp of popular approval on the recent Liberal-Conservative coalition. Col. F. G. Taylor, Conservative leader, declined to join a coalition government of Portage in 1915. Col. Taylor stands elected in his own constituency of Portage in 1915, but many of his followers went down to defeat.

Chief opposition to the government was provided by the Conservatives who contested practically every constituency in the province and waged a vigorous campaign.

With 13 candidates in the field, the Independent Labor Party waged a lively fight in Winnipeg, but without other gains. Early returns showed only one Labor man, John Queen of Winnipeg, elected.

One cabinet minister, Hon. Ewan Macpherson, one of the new Liberal recruits to the cabinet, went down to defeat in Portage la Prairie before the popular Conservative leader, Col. Taylor.

Sanford Evans, chief financial critic of the Conservative opposition in the Manitoba legislature, was assured of election in Winnipeg as early returns showed him first in the constituency. Over 28 candidates contested the city's 10-member constituency.

Mr. Evans is one of the best known Conservatives in Manitoba and is known throughout Canada as an authority on grain trade and business statistics.

A. B. Robin failed in his first attempt to follow his father, Sir Rodmond Robin in a political career. Sir Rodmond was the Conservative member of Parliament for Manitoba, but his son, running as a Conservative in Dufferin, was unable to capture the seat.

## Decision Rests With Immigration Minister

Alleged Communists Have No Right of Recourse To Higher Courts

Halifax, N.S.—Fate of the group of alleged Communists, who have been detained in Halifax for some weeks while their efforts to leave the country were before the courts, now rests solely in the hands of the minister of immigration, Hon. Wesley A. Gordon. It was stated by L. A. Ryan, counsel for the group, that there was no further recourse to higher courts as the decision of the full bench of the supreme court of Nova Scotia had been unanimous.

## Arms Conference Has Suspended Activities

Discussions On Disarmament Postponed For An Indefinite Period

Geneva, Switzerland. Disarmament has been temporarily sidetracked and war debts and reparations discussions came to the fore, almost on the eve of the Lausanne financial conference.

The World Disarmament Conference suspended formal activities for an indefinite period pending private conversations among political leaders looking toward some solution of the disarmament problem.

## Prepared For Eventualities

Fascists In Germany Will Face War If Necessary

Berlin, Germany.—The German Fascist party "will not shrink war" if it is the last means of protecting political and social freedom," Gregor Strasser, head of the entire organization of Adolf Hitler's party, declared in the first political broadcast any German government has permitted a Fascist, to deliver.

"We National Socialists do not desire a new war," Strasser said, "but we will not shrink from war."

## Making Mad Trip

London, England.—The "Georgic," which shares with the "Britannic" the honor of being the largest British-built motorship in the world, will sail on her maiden voyage from Liverpool for New York on June 25. A member of the White Star fleet, she is a 27,800-ton vessel.

W. N. U. 1917

## Big Car Contract

Ford Motor Company of Windsor To Supply English Firm

East Windsor, Ont.—On his return from England recently, W. E. Campbell, president of the Ford Motor Company of Canada, announced that a contract had been entered into by his firm with the Ford Motor Company of England whereby the East Windsor plant of the Canadian company will supply the English firm with 35,000,000 worth of Ford V-8 motors during the next 12 months, and with 1,500 to 1,800 complete V-8 cars, scheduled for delivery in July.

The Canadian company will distribute the new 8 horsepower English Ford in its export markets, New Zealand, Australia, South Africa, Africa, Malay States and other British territories, while the English company will sell the V-8 in Great Britain, Spain, Sweden and other European and Asiatic countries, for which the English Ford company holds selling rights.

Mr. Campbell emphasized that the business was taken at extremely close figures and represents practically 100 per cent. payroll in Canada, not only at the East Windsor plant, but at Toronto and other tire and parts manufacturing centres.

## Burial Of Violet Sharpe

Brief Services Attended By The Acting British Consul-General

Englewood, N.J.—Violet Sharpe, English aviator, died in the home of Mr. Dwight W. Morrow, was buried after a brief service attended by fellow members of the Morrow household and the acting British consul-general who has been instructed to make a report on the girl's suicide five days ago.

The simple cloth-covered casket was borne to a grave in Brookside cemetery, where rests the body of the late Mrs. Dwight W. Morrow, father of the murdered Lindbergh baby, on the shoulders of four male employees.

A member of the Morrow or Lindbergh family attended the final rites, although they were represented by Arthur Brown, the late senator's private secretary, and Mrs. Josephine D. Graham, Mrs. Morrow's private secretary.

## British Immigration

Question Has Not Yet Come Up For Discussion At Inter-Provincial

Edmonton, Alberta.—Commenting on Senator A. D. McLean's suggestion as reported from Winnipeg, to the effect that the question of British immigration to western Canada is considered at the forthcoming inter-provincial conference in Regina, Premier J. E. Brownlee says that he has not had a communication from any source in regard to the matter, and that, should the Dominion government be proposing to put it on the programme for the imperial economic conference advice to the provincial governments would have been given accordingly.

If occasion arises, however, the Alberta Government will be prepared to present its views on such immigration, says Mr. Brownlee.

## Bloodless Sea Fight

British Run Runner and U.S. Cutter In Engagement

Halifax.—Tales of an old-fashioned sea scrap, in which the crews of a British run-runner and a United States cutter battled each other with potatoes, tomatoes, paint pots and molasses Jugs about 70 miles off New York, were told here after the motor ships "Gannet" and "Mary F. Ruth" limped into harbour.

Masters of both vessels claimed they had been summoned by the cutter "Daphne," the "Mary F. Ruth" on Friday, and the "Gannet" on Sunday. The "Gannet" had a large hole in her stern.

## Advisory Committee

London, England.—The creation of an advisory committee representative of all sections of the British trade to accompany the British delegation to the Imperial Economic Conference at Ottawa was strongly urged by Lord Lovat in the House of Lords. The government's representatives should be adequately informed on the technical aspect of the question, he said.

## Will Attempt Speed Flight

New York.—Before taking off for Nashville, Tenn. Cyrus Peabody, a veteran military and commercial airman, announced that within the next few weeks he planned a speed flight from New York to London, France and Germany.

## Hold Station Master Responsible For Wreck

Death Sentence Imposed on Other Employees Get Prison Terms

Dulac, Quebec.—The death sentence was imposed upon the railroad station master at Zeboua and his assistant who were convicted of responsibility for a wreck near the station in which a collision of two passenger trains resulted in the death of one person.

It was a head-on collision between two trains and the station master was charged with having mixed the signals while he was intoxicated. Thirteen other railroad employees, including the crews of both trains, were sentenced to prison terms of one to ten years. One man was exonerated.

## Receives Heavy Sentence

Gaston R. Means Convicted On Swindling Charge

Washington.—Gaston R. Means was sentenced to 15 years' imprisonment for swindling Mrs. Evelyn Walsh McLean of \$104,000 in an alleged plot to return the kidnapped Lindbergh baby.

Justice James M. Proctor in the District of Columbia Supreme Court sentenced the former justice department investigator to 10 years on the charge of larceny of the \$4,000 fine money. The latter sentence is to begin after the 10-year sentence has been fulfilled.

## Demand High Wages

Australian Jobless Refuse Pay Offered By Grain Growers

Sydney, Australia.—The dole has made some of the jobless here rather particular about the kind of work they are willing to accept. At Mulgrew, centre of the vineyard district, grain growers agreed to give preference of employment in the picking season to local men on the dole. They offered \$2.00 a day with meals and quarters added. The work was rejected.

## ST. LAWRENCE SEAWAY ROUTE HAS U.S. SUPPORT

Chicago.—Negotiations with Canada for the development of the St. Lawrence seaway is now at a favorable point according to the administration plan presented to the Republican National Convention here.

The St. Lawrence plank of the party platform reads: "The Republican party stands committed to the development of the Great Lakes-St. Lawrence seaway. Under the direction of President Hoover negotiation of a treaty with Canada for this development is an inestimable benefit which will accrue to the nation from placing the ports of the Great Lakes on a direct waterway to the party reaffirms allegiance to the great project and pledges its best efforts to secure its early completion."

Victoria, B.C.—Forest fires are raging in spruce and pine timberlands opposite Douglas Lodge, in the Stuart Lake district of northern British Columbia, where a fire which started in the Great Lakes-St. Lawrence seaway grounds of Indians in the Fort St. James district, it was reported to the government here.

## GOVERNMENT ENDORSED

Delegates From All Parts Of Canada Attending Convention At Detroit

Detroit.—Canadians from all parts of the Dominion arriving here for the 16th annual convention of Kiwanis International are prepared for four days of problems pertaining to unemployment, abnormal relations, child welfare, adult education, and civic betterment.

Kiwanis was founded in Detroit on January 23, 1915, and the thousands of Kiwanians from all parts of Canada and the U.S. crowding into the city consider the occasion a pilgrimage back to the birthplace of the service organization. "We are justified in our faith in the future of Kiwanis," declared William O. Harris of Los Angeles, International president, in his annual message. "We can be proud of our past accomplishments, and our present opportunity lies in the willingness to serve in the social and economic problems that we face today."

The Canadian delegations are in charge of three district governors: Charles A. Fowler, of Halifax, N.S., Ontario, and Maritime districts; James P. Whyte, of Swift Current, Sask., Western Canada district; and Clinton S. Harley, of Seattle, Pacific Northwest district.

Two international officers, Andrew G. Gaul, of Hamilton, Ont., vice-president, and Dr. Charles C. Tatham, of Edmonton, trustee, will take leading parts in the convention.

Over 1,500 Kiwanis clubs across Canada and the U.S. will meet spontaneously. This international fellowship occasion will bring together over 80,000 men on an expression of gratitude for the community betterment and welfare work of Kiwanis during the past year.

All Kiwanis clubs in Canada are observing Canadian citizenship week, June 26 to July 2, with patriotic programs. The observance is being directed by the Kiwanis International committee on public affairs for Canada. H. Stanley Hignam, of Ottawa, is president, and Nelson A. Harrison, Vancouver, and Richard W. Moore, Saskatoon, members of the committee.

Nonchalantly strolling up to the teller's window as if to make a deposit, the armed marauder confronted Charles F. Mott, teller, with a revolver and ordered strict silence.

Stepping behind the counter, he hustled the four employees to the rear of the premises, calmly but efficiently cracking the scene of what is viewed as a big new gold strike. The find is some 40 miles northwest of Island Lake, where important gold showings were found during the winter. A rush of claim stakers from the Island Lake district followed news of the strike.

Details of the find have not come out, but it is stated samples taken to Island Lake are richer than those of the area which started a big aeroplane rush from Winnipeg a few months ago.

## CONFERENCE AT OTTAWA MAY BE VERY BRIEF

London, England.—The British Government and the governments of the Dominions are expected to have proceedings of the Imperial Economic Conference at Ottawa must not be long drawn out, said J. H. Thomas, Secretary of State for the Dominions, in a statement on the conference in the House of Commons.

"No positive preparatory work has been left undone on this side," the minister said, and if the other had acted likewise the conference would not fail in its task of securing greater and freer trade.

Tariffs and Imperial preference, the nationalization of industries, monetary and financial questions, including the whole question of currency and migration, would all be taken up by the conference, said the minister.

"The United Kingdom Government," he declared, "will advocate the establishment of machinery representing the dominions that will keep them in daily contact."

Reconciliation of the divergent interests of the different sections of the empire was a great and difficult task, but a worthy one, which the great mass of people were hoping would be accomplished, Mr. Thomas said, "if we can help each other," he added, "what an example that will be to the world."

## Winnipeg Bank Robbery

Bandits Tie Up Staff and Escape With \$5,000

Winnipeg, Man.—A hold-up entered the Cordon and Osborne branch of the Royal Bank of Canada here just before closing time Thursday afternoon, June 16, according to the small staff and made a neat getaway with \$5,000. The robbery was not discovered until one hour later. With the exception of the staff of four the bank was empty at the time.

Nonchalantly strolling up to the teller's window as if to make a deposit, the armed marauder confronted Charles F. Mott, teller, with a revolver and ordered strict silence.

Stepping behind the counter, he hustled the four employees to the rear of the premises, calmly but efficiently cracking the scene of what is viewed as a big new gold strike. ### To Amalgamate Municipalities Into 40 Districts

Premier Brownlee Announces  
Proposed New Plan of  
Amalgamation

EDMONTON, Alta., June 22.—Abolition of the present system of small municipal districts in the province and the creation in its place of a system of "enlarged municipal areas," under which the 100 municipal districts now in operation, together with some 143 improvement districts now administered by the provincial government, would be amalgamated into some 40 "enlarged" areas, thereby eliminating a large part of the cost of government both provincial and municipal, while increasing efficiency of administration is proposed in a plan announced this week by Premier J. E. Brownlee. A saving in municipal administrative costs alone of over a quarter million dollars or three-quarters of a mill on the total rural assessment in the province is estimated, while the saving in provincial administrative costs and in the costs of all public services will run into very large figures.

The proposal, which has already been before the provincial cabinet, and is now presented to the public by the Premier, is the result of two years of rather exhaustive study and survey of the province conducted by an official of the Department of Municipal Affairs. The plan is entirely different from any scheme of large municipal organizations in existence in Canada or the United States, and is simply the application of the principles of our present small municipal unit to the larger area and continues the existing idea of only one authority for municipal administrative and taxing purposes.

The plan as so far developed will, in accordance with a resolution of the last convention of the municipal districts association, be discussed further with the executive of that organization who have already been in consultation with the department officials in its preparations. It will then be submitted to the next convention of that association after which it is hoped it will be ready for submission to the next session of the provincial legislature. As a basis for discussion only, a map has been prepared setting out a plan of consolidation which appears reasonable and equitable to the departmental officials, but this map will, of course, be subject to adjustment, both as to the number of large units and their boundaries, as a result of further discussion. The new dis-

tricts would be set up in accordance with certain fundamental principles, more or less as follows:  
Grouping of localities having a common interest, and being of the same general agricultural and geographical classification as far as possible.  
Maintenance of the municipal boundaries along township and range lines save where natural boundaries such as rivers might more advantageously be used.

Existence of sufficient population and assessable property so that each unit could function economically.  
Consolidation of the accessibility of the administrative center.  
Government of the units would be much the same as the government of the present municipal districts. There would be a council of six or eight elected from six or eight wards or electoral divisions established in the enlarged municipal areas, with the possible chance of having the reeve or chairman of council elected at large, rather than by appointment from the membership of the council as at present.

Premier Brownlee, in discussing the new plan, points out that the development is a logical one, in view not only of the urgent necessity for reducing the general cost of government wherever justified, but also in view of the fact that with the vastly improved facilities of transportation and communication of the present day, enlarged areas are in reality more easily administered than were the smaller units under the conditions which existed when the present system was created.

One of the great benefits of the scheme would be the large economy in the cost of administration, both provincial and municipal, already referred to.

Other advantages of the plan would be:  
A greater equalization of the tax burden.

A more uniform and more equitable assessment of the lands in the area, since the judgment of the assessor would be applied over a very much larger area.

More uniform school levies, and a saving in the administrative costs of education.

A more co-ordinated system of road-building, the enlargement of the municipal areas making it possible to bring the roads into alignment with those of other districts and with the general provincial highway plan.

The plan, if adopted, would present, also, the opportunity for a review of the whole field of taxation as between the municipalities and the government. The possibility is suggested that the provincial government would abandon the field of real property taxation, leaving that to the jurisdiction of municipal councils, urban as well as rural.

### Calgary Exhibition

The Calgary Exhibition and Stampede will be held this year on July 11 to 18 and will include the most outstanding programme ever engaged for Calgary's annual celebration. It will require all available space on the Exhibition grounds to house exhibits. The Stampede will once more bring together the most outstanding riders of this continent and approximately twenty districts will be represented in the chuck wagon race.

The week's celebration will open with the mammoth Stampede Parade at 10 o'clock Monday morning, which each year is enjoyed by between fifty and sixty thousand people. Judging of live stock will be done on Tuesday, Wednesday and Thursday, and on Friday morning the live stock review will be staged in front of the grand stand. Last year between thirteen and fourteen thousand people packed the grandstand and enclosure to witness this new feature. This year Burns and Co. Ltd. are presenting a Danmore pony from the Prince of Wales' ranch, the North Star Old Ltd.

is presenting a Shetland pony and the Ontario Laundry is presenting two dogs, to girls and boys under 10 years of age who are present at the review. Free tickets of admission will be distributed to them in the various schools within a radius of fifty miles of Calgary, and any teacher outside that area may obtain tickets for school boys and girls of that age by writing to the Exhibition manager.

The grandstand performance includes a wonderful production called "Canada Marching on," which will be participated in by about 150 artists and which includes some of the best vaudeville features ever engaged for the Calgary Fair.

The running race programme will this year be for seven days, commencing on Saturday afternoon, July 11, before the Exhibition opens. The week's features include morning street displays on Tuesday, Thursday and Friday mornings, the Cow-boy and Old Time's Ball on Friday night, and one of the greatest fireworks programmes ever given on Saturday night. Special passenger fares of fare and a quarter will be in force from Alberta, Saskatchewan and British Columbia mainland points. A free accommodation booth will be located in front of the C. P. R. Station, where hotel or private rooms may be obtained.

Mrs. Beaubier entertained a few ladies on Thursday in honor of Mrs. Milliken who leaves on the 24th for Hythe, Alberta. Mrs. Milliken was presented with a gift and the best wishes for success in her new home.

K. R. McLean, R.O., of McLean & Anderson, Sight Specialist of 224-8th Ave West, Calgary, will make his monthly visit to Champion, Friday, June 24th, at the Drug store.

The Ladies' of the Royal Purple announce that they will serve supper for the July 1st dance.
